

INFLAMMATION AND YOUR HEART HEALTH

Presented by the Center for the Prevention of Cardiovascular Disease

Autoimmune diseases, such as psoriasis and psoriatic arthritis, rheumatoid arthritis and lupus have been shown to increase the risk for heart disease. Join NYU Langone cardiologist Michael Garshick, MD, to learn how autoimmune diseases impact the cardiovascular system and ways to reduce your risk.

Topics:

- How inflammation caused by autoimmune disorders affects the cardiovascular system
- The latest research developments on inflammatory disorders and cardiovascular disease risk

Date + Time Thursday, April 11, 2019 | 6:00 - 7:00 pm

Location **NYU Langone Health**
550 First Avenue (at 31st Street), Alumni Hall B
