

Heart Health Lecture Series

AIR TRAVEL, CELLPHONES AND RADIATION

IS THERE A HEALTH RISK?

Presented by the Center for the Prevention of Cardiovascular Disease

Radiation exposure can occur during medical procedures, from sources found in nature and from objects used in daily life. Join diagnostic radiologist Mark Shafer, MD, as he shares information on possible health risks from radiation exposure due to cellphone and wireless device use, air travel, cigarette smoking and medical procedures.

Thursday, June 20, 2019

6:00 PM - 7:00 PM

Science Building

435 East 30th Street, SB 1 03 Seminar Room

Topics

- Sources of radiation and the potential impact on health
- Results of the research studies exploring the link between cell phones and tumors
- Ways to minimize your radiation exposure

Speaker

Mark Shafer, MD

Diagnostic Radiologist
NYC Health + Hospitals/Woodhull
