

CBD OIL

THE MOST COMPELLING THINGS YOU NEED TO KNOW

Presented by the Center for the Prevention of Cardiovascular Disease

The use of CBD oil products to treat a wide-range of health issues including anxiety, sleeplessness, pain relief, cancer symptoms, high blood pressure and epileptic seizures is gaining in popularity. Join integrative psychiatrist Richard M. Carlton, MD to learn if the latest research supports the safety and effectiveness of using CBD oil to treat a variety of health conditions.

TOPICS INCLUDE:

- How CBD oil works and how it differs from marijuana
- Methods of delivery, dosage, known benefits and possible side effects of CBD oil
- Learn how CBD oil may interact with other medications
- Understand the quality of CBD supplements on market

Monday, September 23, 2019
