March 2021 Full Board Report to Manhattan Community Board 6

Highlights

1. Repealing Governor Cuomo's Emergency Powers

Majority Leader Stewart-Cousins and my colleagues are moving to strip Governor Cuomo of his Emergency Powers while preserving existing executive orders pertaining to the public health emergency. Read my board report for more details.

2. Hoylman Vaccine Appointment Help Center

I'm launching a COVID-19 Vaccine Appointment Help Center because I've heard from so many of you about how difficult it is to get an appointment for a vaccine. If you live in my district, you can sign up using this form: <https://bit.ly/HoylmanHelpCenter>

Please fill out the information on this form completely so we can help determine your eligibility, which will enable us to try to schedule an appointment for you. As appointments go very quickly, we urge you to continue to try to make your own appointment, too. We cannot guarantee an appointment because scheduling availability is subject to vaccine supply and other factors outside of our control. We will contact you to let you know. More details in my report.

3. Advocating for a Dedicated Manhattan Vaccine Site at Budget Hearing

Last week, the State Legislature held its final budget hearing for the FY 21-22 state budget cycle, on Health-related issues. I asked Commissioner Zucker about the prospect of establishing a State-run COVID-19 vaccination site that is dedicated for Manhattan residents only. Unlike the Bronx, Brooklyn, and Queens, our borough does not have a State-run site with an allotment of vaccines reserved for our residents only. As the vaccine rollout continues and the U.S. ramps up vaccine production I will continue to advocate for a State-run site dedicated to Manhattan residents
